

## **ENGINE AND COMPONENT WARRANTY TERMS**

Engines, Instruments and electrical components actually overhauled or repaired by Fieldair Engineering Ltd, are exclusively warranted against failure, due to faulty workmanship on the part of Fieldair Engineering Ltd, for a period of six months from the date of installation or 300 hours operation, whichever comes first.

Provided that:

1. All items must be inspected by the customer upon receipt for any evidence of shipping damage prior to installation.
2. Fieldair Engineering Ltd will ensure that all items are appropriately packed but accepts no further liability for handling damage or losses in transit.
3. All engines and components must be correctly installed by or to the satisfaction of Fieldair Engineering Ltd within 2 months of delivery to the customer for engines and 6 months for components.
4. All items must be operated and maintained in accordance with approved operating instructions.
5. In the event of a failure occurring within the above warranty period the customer must immediately advise Fieldair Engineering Ltd and submit a Warranty Application form QE-082. Attn Engineering Manager.
6. The customer will be responsible for ensuring that any damaged or failed item is properly packed and returned to Fieldair Engineering Ltd at Palmerston North for investigation to establish the cause of failure and liability for repair.
7. This warranty applies only to the original customer for the engine or component and to that work actually carried out by Fieldair Engineering Ltd.
8. Warranties on parts or outwork supplied by other Companies will be limited to the terms available from those organisations.
9. If an engine is operated in the following categories the warranty is deemed null in void:  
Glider Towing or Para Dropping.
